

**Blaze, Blaze Through the Land**  
(sung to the tune of Home on the Range)

written by Joan Reiter , June 2009  
For the 3<sup>rd</sup> National Community Health Nurses Conference  
Calgary Alberta

Banquet performance song

1. Oh give me a nurse that is very well versed  
In community health practices  
We spend our day, where folks live, work and play  
And the work that we do is priceless

CHORUS:

Blaze, blaze through the land  
With the standards held in our hand  
Our knowledge is great, and we reach higher stakes  
Community nursing, we blaze

2. Empowerment, and informed consent  
are part of our practice each day  
Promoting health, and caring for self  
And partnerships show us the way

CHORUS:

Blaze, blaze through the land  
With the standards held in our hand  
Our knowledge is great, and we reach higher stakes  
Community nursing, we blaze

3. For your attitudes, I have much gratitude  
and your skills are most unsurpassed  
I stand here amazed, there's so many cliché's  
That describe your knowledge, its vast

CHORUS:

Blaze, blaze through the land  
With the standards held in our hand  
Our knowledge is great, and we reach higher stakes  
Community nursing, we blaze

4. So if you go home and you feel all along  
Please just STOP, it's all in your head  
Just look around, 400 nurses make a sound (YEE HA)  
You'll never be alone again
