## Implementing an Evidence-Based Program: Sustaining Triple P to Improve Child Outcomes

Sheila Hattie-Miller, RN, BScN, BSc Psyc, Public Health Nurse  
Suzanne Vandervoort, BScN, MEd CCHN (C)  
Michelle Sangster Bouck, MA

**ML** MIDDLESEX-LONDON HEALTH UNIT

## Purpose of Presentation

- Using evaluation to support implementation of an evidence-based program
  - Evidence Review and Summary
  - Program Logic Model
  - Internal Report

**ML** MIDDLESEX-LONDON HEALTH UNIT

## Where it all began . . .

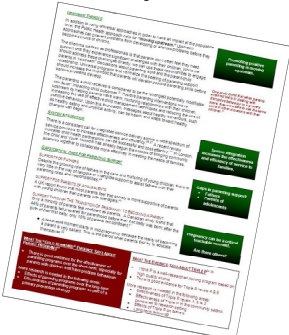

- Initial Parenting Report (2009)
  - Focussed on the “what” and “why”
- Health Unit workgroup formed to develop parenting plan (2010)
  - Internal Inventory
  - Evidence seeking around “how”
  - Program Investigation

**ML** MIDDLESEX-LONDON HEALTH UNIT

## Evidence Summary

- Succinct, easy to read
- Highlight key themes

**ML** MIDDLESEX-LONDON HEALTH UNIT

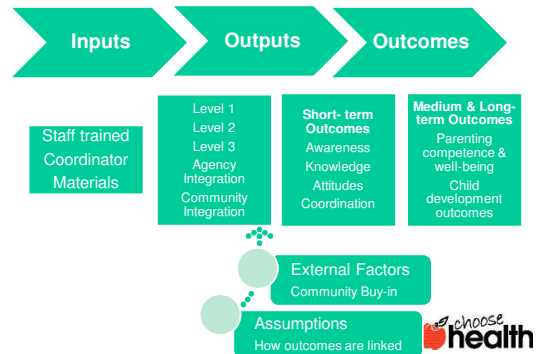

## Role of Evidence Summary

- To present the evidence
- To build momentum for decision to adopt Triple P program

## Program Logic Model

- After adopting the Triple P Program, we shifted into implementation
- Used a Program Logic Model to guide implementation
  - Simplified picture of how a program is *supposed* to work

## Use of Program Logic Model

- Facilitated program planning
- Identified key decisions for management
- Framework for evaluation plan
- Kept the “big picture” in view

## Internal Report

- Internal Report
  - Recommendations and rationale

## Design, develop & implement Triple P tracking system

### Finding:

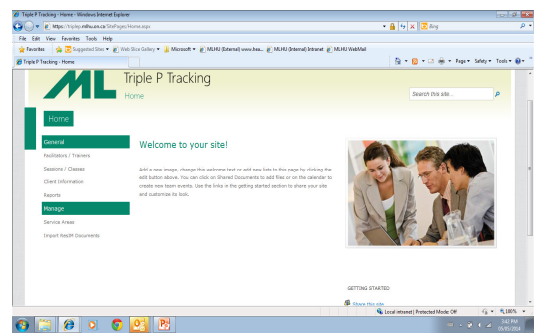

- Existing processes are inefficient and unable to provide accurate program data

### Literature:

- Decision-support data systems are critical to the overall performance; they support decision making and ensure continuing implementation of program

### Next steps:

- Design system to address program & facilitator tracking, client registration & tracking, documentation

## Maintain & enhance peer support to ensure program fidelity

### Finding:

- 57 staff trained and accredited in Triple P

### Literature:

- Peer support needs to be maintained throughout implementation (competency driver)

### Next steps:

- Support from Parenting Coordinator
- Considering implementing peer-support model

## Increase reach of Triple P programs to parents of 2-4 year olds

### Literature:

- Important age to engage parents; they are receptive and motivated to attend early interventions

### Next steps:

- Consider appropriate locations to engage parents

## Recommendations

- Dedicated Administrative Assistant Support

## Administrative Assistant Support

- At present we have 2 Administrative Assistant Support

## Recommendations

Allocate funding for population level communications campaign

- Level 1 needed to drive participation in Level 2 programming

## Triple P iParent-Aug 2013

**PARENTING DOESN'T STOP WHEN YOUR KIDS START SCHOOL.**

As your child grows up you will face different challenges. There are lots of ways to manage the changes you and your child are going through. Stay involved. Keep parenting. Contact us today to find answers together. 519.850.2280

## iParent Campaign-Hits the Road

## November 2013

## May 2014

## Fall 2014

## Spring 2015

## Recommendations

Dedicate resources to partnership building in the community.

- Triple P is a community-based strategy

## Triple P Community

- Challenges and struggles
- Small group
- French and Spanish in fall
- Triple P group level 4 with a partner

## Recommendations

Explore opportunities for implementation of Triple P Level 3 (1-to-1) in our community beyond HBHC clients.

- Current gap in our community

And now it is time for . . .  
Questions

**THANK YOU**
