Key Learning Objectives:

<http://www.komarketingassociates.com/images/2012/05/full-service-sign2.jpg>

Following the presentation the participants will be able to:

1. Identify new ideas and strategies to help decrease the barriers to utilization of sexual health services in their rural communities.
2. Be encouraged to seek out and engage community partners that would be able to collaborate and set-up a community outreach walk-in/clinic.
3. Identify where they can utilize medical directives for their nurses to work in an expanded role.
