

Toronto Public Health

A Blueprint for Public Health Nurses as Researchers: Innovation toward role clarity

CHNC Conference June 2014

Katie Dilworth
Christine Schofield
Caroline Murphy
Leinic Chung-Lee

Toronto Public Health | **Agenda**

- Describe the Student Survey
- Data collection by nurse
- Challenges overcome
- Evaluation
- Special

The Student Survey measures the overall health and well-being of Toronto students from grades 7- 12.

Findings will help all who support youth in Toronto to provide the best services possible.

Written Questionnaire

Height & Weight Measurement

Oral Health Assessment

Toronto Public Health | **Why nurses as data collectors?**

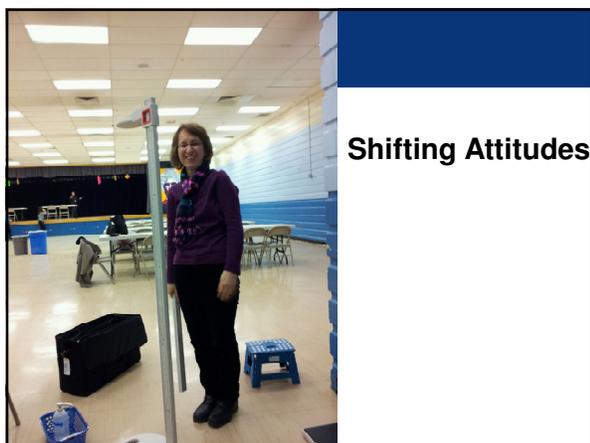

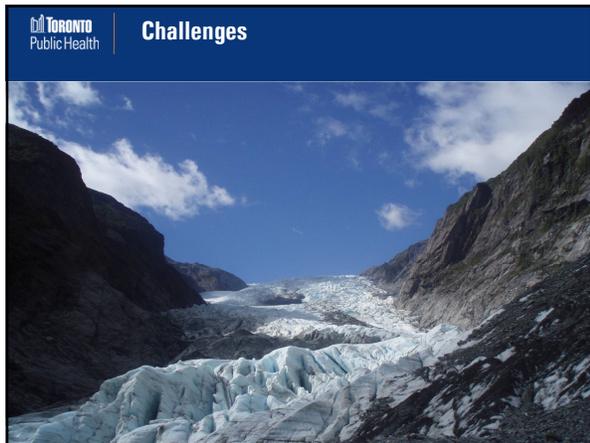

Toronto Public Health | **A Nursing priority**

CHNC COMMUNITY HEALTH NURSES OF CANADA

ISCC INFIRMIÈRES ET INFIRMIERS EN SANTÉ COMMUNAUTAIRE DU CANADA

CNO COLLEGE OF NURSES OF ONTARIO
OTO ORDRE DES INFIRMIÈRES ET INFIRMIERS DE L'ONTARIO

Toronto Public Health | Conclusions

- Nurses: legitimate role in research
- Preparation important
- Training helps build capacity.
- Nursing supporting nurses critical

Toronto Public Health | Thank you
